VL = Very Likely L = Likely A = Average U = Unlikely VU = Very Unlikely

INSTRUCTIONS, FORM 6

A scenario is a plausible story that describes what might have happened and which fits in with the known facts.

You will use your scenarios to help you plan where to search and where to locate confinement.

Scenarios should ideally be done with the active participation of someone who knows the area. Bear in mind what the informant has told you about what they think has happened. Scenarios should:

- Be real possibilities.
- Fit in with the Missing Person Profile.
- Fit in with Lost Person Behaviour information.
- Indicate where the subject might have gone.
- Be written down on this form.

Write down any scenarios you think have some possibility of describing what has happened to the subject. You should aim for at least three. You can write them down in any order.

Each scenario needs to be given a 'likelihood rating.' This is a measure of how likely you think it is that this scenario describes what actually happened. Use the abbreviations at the bottom of the sheet. Be realistic.

Base your likelihood rating on what you have been told about the subject and Lost Person Behaviour information.
